

John Doe

Frontend Developer | React.js | JavaScript | Backend API Integration

Chennai, India | +91 98765 43210 | john.doe@email.com | linkedin.com/in/johndoe | github.com/johndoe | johndoe.dev

Professional Summary

Frontend Developer with hands-on experience building responsive web applications using React.js, JavaScript, HTML5, CSS3, Tailwind CSS, and REST API integration. Strong understanding of backend fundamentals including FastAPI, Node.js basics, SQL databases, JWT authentication, CRUD flows, API testing, and role-based application workflows.

Technical Skills

Frontend	React.js, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive UI
React	Hooks, Context API, React Router, Axios, Forms, Protected Routes, Reusable Components
Backend Knowledge	FastAPI basics, Node.js/Express basics, REST APIs, JWT Auth, Role-based Access, API Validation
Database & Tools	SQL, MySQL/PostgreSQL basics, CRUD, Joins, Git, GitHub, Postman, VS Code, Vite, npm

Professional Experience

Frontend Developer - ABC Digital Solutions

Jan 2024 - Present | Chennai, India

- Built responsive React.js pages using reusable components, Tailwind CSS, and clean layout patterns for dashboard modules.
- Integrated frontend screens with REST APIs using Axios and handled loading states, validation errors, protected routes, and role-based rendering.
- Worked with backend developers to connect authentication, profile management, file upload, job listing, applicants, and notification workflows.

Frontend Developer Intern - TechNova Labs

Jun 2023 - Dec 2023 | Remote

- Created landing pages, login screens, form pages, and dashboard cards using React.js, CSS, and Bootstrap.
- Connected frontend forms with backend APIs, tested endpoints through Postman, and rendered API response data in UI components.
- Practiced SQL CRUD operations and understood database relationships used in user, profile, application, and notification modules.

Projects

Recapra - Career Rebuilding and Hiring Platform

React.js, FastAPI, SQL, JWT, Tailwind CSS

- Developed candidate, company, and admin workflows including profile completion, resume upload, job posting, applicants table, notifications, and verification management.
- Implemented protected routing and role-based navigation for candidate, company, and admin dashboards.
- Integrated React frontend with FastAPI endpoints using Axios and real backend data for jobs, applications, profiles, notifications, and dashboard metrics.

Portfolio Website

React.js, Tailwind CSS, GitHub Pages

- Created a responsive portfolio with project cards, contact section, skills showcase, GitHub links, and live demo links.

Education

Bachelor of Computer Applications

ABC University, Chennai | Marks: 78%

2021 - 2024

Certifications

- React.js Frontend Development - Online Certification
- JavaScript ES6 and Web Development Fundamentals
- SQL Basics and REST API Testing with Postman

Additional Strengths

- Good understanding of frontend-backend communication, JSON data handling, and API-driven UI workflows.
- Able to debug UI alignment, routing issues, API errors, and data rendering problems in React applications.
